PROFESSIONAL SUMMARY

Detail-oriented and analytical Data Analyst with 2 years of experience in data analysis, reporting, and business intelligence. Proficient in gathering and analyzing large datasets, creating insightful reports and dashboards, and helping businesses make data-driven decisions. Skilled in using tools such as Power BI, SQL, Excel, and Python to extract, clean, and visualize data. Skilled at delivering insights that led to a 30% improvement in business performance and reducing reporting time by 25%.

SKILLS

- Data Analysis & Reporting:** Data Cleaning, Data Transformation, Data Wrangling, Trend Analysis, Statistical Analysis
- Business Intelligence Tools:** Power BI, Excel (Advanced), Google Analytics, Tableau
- Database Management:** SQL, Azure SQL, MSSQL, NoSQL (Mongo DB)
- Programming & Scripting:** Python (Pandas, NumPy)
- ETL Processes:** Data Integration, M Language (Power Query), API Integration
- Data Visualization:** Interactive Dashboards, Reports, KPIs, Time Series Analysis, Heatmaps
- Cloud Platforms:** Azure, AWS
- Soft Skills:** Story Telling, Problem Solving, Collaboration, Time Management

EXPERIENCE

Data Analyst | BI Developer Tata Consultancy Services

June 2023 - Current

- Developed and implemented 10+ Power BI dashboards, resulting in a 30% improvement in decision-making speed for the business team by providing real-time access to sales and operational performance.
- Optimized data reporting processes, cutting reporting time by 25% through automation with Power BI and Excel, which improved overall team efficiency.
- Analyzed business data from 3 different data sources (SQL, Excel, and cloud databases), leading to a 20% improvement in sales forecasting accuracy.
- Collaborated with 5+ stakeholders (product managers, marketing, finance teams) to gather reporting requirements, ensuring the development of actionable, business-relevant insights.
- Created actionable KPIs and custom visualizations, empowering executives to track revenue growth, customer satisfaction, and conversion rates, leading to a 10% increase in overall business performance.
- Refined DAX measures and queries for complex calculations, reducing report load times by 15% and improving the end-user experience.

Software Intern LexisNexis

June 2022 - Jan 2023

- Built and automated 5+ Power BI reports for internal teams, enabling real-time tracking of key business metrics and resulting in a 15% reduction in manual reporting errors.
- Cleaned and transformed raw data using Power Query and SQL, ensuring 95% data accuracy for reporting purposes.
- Worked with cross-functional teams to gather business requirements for dashboards, ensuring that 100% of the project needs were met on time.

EDUCATION

Bachelor of Technology in Computer Science (2019 - 2023)

Pragati Engineering College - Affiliated by Jawaharlal Nehru Technological University (AAA+ , NAAC A)
CGPA - 8.0

- Relevant coursework: Data Analytics, Software Architecture, Cloud Services, Business Intelligence, Databases, Data Visualization, Machine Learning, Statistics.

PROJECTS

Sales Performance Dashboard

- Developed a comprehensive Power BI dashboard tracking sales performance across 4 regions and 10+ products, leading to a 20% increase in revenue tracking accuracy.
- Integrated SQL Server and Excel data sources into the dashboard, automating data refreshes and cutting reporting time by 25%.
- Implemented drill-down capabilities and filters, allowing users to explore detailed data by region and product type, resulting in faster insights into performance trends.

Financial Reporting System

- Built an interactive financial reporting system in Power BI, providing real-time visualizations of key financial metrics, including revenue, expenses, and profits.
- Applied Power Query to clean and transform raw financial data into structured tables for reporting.
- Used Power BI's DAX capabilities to create calculated columns and measures for advanced financial calculations like ROI and Profit Margins.

CERTIFICATIONS

- Microsoft Certified: Power BI Developer (900+ Score)
- Data Analysis with Python - IBM
- Excel Mastery Certificate – Udemy
- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Azure Data Fundamentals
- AWS Certified Developer Associate
